12Volt DC Boxed Switchmode Power Supply

13.8V DC Switchmode Power Supply
Small Clam Shell Housing
3 Amp Maximum Output

Application - BS4737 Intruder Systems Installations that require a 12 Volt Supply with no battery back. i.e. - Access Control, Entry Systems and General Use

- 13.8 Volt DC Regulated Output
- Additional Battery Charging
- Battery Fault LED Indication
- Mains on LED Indication
- Switchmode Technology
- Vented Enclosure for heat dissipation
- Small Clam Shell Housing
- Maximum Output - 3 Amp
- Tamper Protection

Dimensions:

Size - 225H x 200W x 75D all mm

Weight = 1.59Kg

CE APPROVED

EMC TO EN55011

RFI TO EN55022
