

PSG714

12Volt DC Switchmode Power Supply

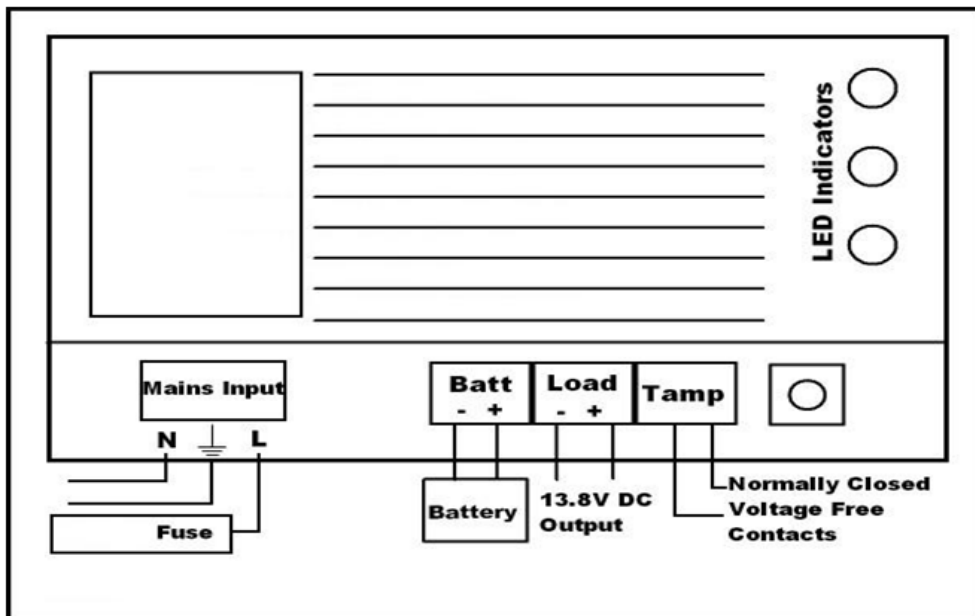

13.8V DC Switchmode Power Supply

Fitted to Chassis

1 Amp Maximum Output

Application - BS4737 Intruder Systems Installations that require a 12 Volt Supply with battery back up. i.e. - Access Control, Entry Systems and General Use

- 13.8 Volt DC Regulated Output
- Additional Battery Charging
- Battery Fault LED Indication
- Mains on LED Indication
- Switchmode Technology
- Vented Enclosure for heat dissipation
- Mounted on Steel Chassis Plate
- Maximum Output - 1 Amp
- Tamper Protection

Dimensions:

Size - 110H x 200W x 40D all mm

Weight = 500g

CE APPROVED

EMC TO EN55011

RFI TO EN55022
